If we stick with Michelle as Narrator and go with moving Vikram to Prince and convince Rob to play a prince, that gives us Michelle, Melanie, Keera, Isabella, Kate, Ethan, Vikram, Rob, Jessica, and Sean with settled roles – 10 actors. Suppose we also cast Kayla as Rapunzel and a Step Sister.

That leaves Yoo, Iyar, and Min to fight it out for Cinderella, Cinderella's Mother, Step Mother, the steward and Granny. Cinderella is a major part so that leaves two to split the remaining 4 roles.
