If we stick with Michelle as Narrator and go with moving Vikram to Prince and convince Rob to play a prince, that gives us Michelle, Melanie, Keera, Isabella, Kate, Ethan, Vikram, Rob, Jessica, and Sean with settled roles – 10 actors. Suppose we also cast Iyar as Rapunzel and Kayla as Granny and a Step Sister.

That leaves Yoo, Min, and Simone to fight it out for Cinderella's Mother, Florinda, the steward and cinderella's father. We could create little ensemble skits for them to do during the scene changes. Or they could be flowers in the Hello Little Girl scene. In fact, they could be the bouquet.
